

**Name:** Greg S. Mitchell, P.E. (SC & VA)

**Title:** Environmental, Safety, Health & Security Manager

**Company:** Mitsubishi Chemical America, Inc. – Polyester Film Division

**City/State:** Greer, South Carolina

**Education and Professional Credentials:**

B.S. and M.S. in Biosystems Engineering, Clemson University; Registered Professional Engineer (P.E.), South Carolina and Virginia; Level “A” Physical/Chemical and Biological Wastewater Operator (SC); Lead Auditor (ISO9001:2015; ISO14001:2015; RC14001:2015).

**Biographical Summary:**

Greg Mitchell is currently the Environmental, Safety, Health, and Security (ESH&S) Manager for Mitsubishi Chemical America, Inc. – Polyester Film Division in Greer (MFA), South Carolina, where he is responsible for safety and environmental compliance. He is responsible for the site’s compliance with its Title V Air Permit and other air regulations including the PET MACT, RICE MACT, Boiler MACT, and GHG Reporting. Additionally, he has compliance responsibilities for other environmental regulations/permits such as SARA/EPCRA, RCRA, Stormwater, and the site’s Wastewater Discharge Permit. He is also a trained ISO 9001:2015, ISO14001:2015, and RC14001:2015 lead auditor.

Prior to joining MFA in 2011, Greg worked as an environmental engineer on numerous remediation, landfill, wastewater, and environmental compliance projects at TRC Companies, Inc. (formerly RMT, Inc.) for a variety of manufacturing clients following graduation with a master’s in Biosystems Engineering from Clemson University in 2000. He served as President of the Piedmont Chapter of the South Carolina Society of Professional Engineers (2010 – 2011) and was awarded the Young Engineer of the Year award by the Piedmont Chapter in 2009.
