

Kelly is a DC native with over 10 years of experience as environmental engineer and emergency management professional, including air quality compliance, enforcement, asbestos permitting, management of environmental systems, integrated contingency planning, and remediation of environmental health hazards. She previously served as the State Air Director for the District of Columbia and Associate Director of the Air Quality Division of DC Department of energy & environment where she led a team of scientists and engineers developing and ensuring compliance with air quality regulations through the lens of equity in the District of Columbia. Prior to her tenure at DOEE, Mrs. Crawford served as contract environmental engineer and program manager at NASA's Goddard Space Flight Center supporting the Environmental Management System, Oil Control Program and Air Quality Programs. Mrs. Crawford is a Certified Public Manager (CPM) and holds a M.S. in Management with a focus in Emergency Management from University of Maryland, and a B.S. in Environmental Science from Rochester Institute of Technology. She is also an LEED Accredited Professional by the US Green Building Council.
