

Stephanie Phillips graduated from Appalachian State University in 2014 with a Bachelor's degree in Environmental Science. She received her Master's degree in Environmental Engineering and Science with a focus in Environmental Health Physics from Clemson University in 2016. She began her career as an environmental consultant for Civil & Environmental Consultants, Inc. (CEC) where she worked her way up from Staff Consultant to Assistant Project Manager over a period of four years. Stephanie transitioned from consulting to industry in 2021 when she joined Intertape Polymer Group (IPG) as their Corporate Environmental Engineer. Currently at IPG, she assists over 30 manufacturing facilities in maintaining environmental compliance with local, state, and federal regulations.

Stephanie has been the A&WMA SASS Secretary since 2019. She is also the Communications Chair for the A&WMA Sections and Chapters Council.
