

## Richard Tropp

Dr. Richard Tropp is an Associate Research Professor Emeritus at the Desert Research Institute and recently relocated to Washington, DC. He has over 47 years of experience in air quality research and management including regulation development and atmospheric sciences research (Texas Air Control Board), environmental consulting and technical support for EPA (TRC Environmental), and air quality research and quality assurance/quality control (DRI). He has been a member of A&WMA since 1981 serving in a variety of roles, including Central Texas Chapter Chair, Southwest Section Vice-Chair, and Eastern Sierra Chapter Board of Directors. He served on A&WMA's Technical Council for almost 30 years including Vice Chair, Chair and Past Chair. As Chair he was Technical Program Chair for three annual conferences and on the Association's Board of Directors for three years. He also was Co-Chair for four Air Quality Measurement Methods and Technology Conferences held on the West Coast.
